Capabilities Statement

JAG Industrial Services, Inc. provides project management, skilled labor and quality assurance for marine repair and shipbuilding as well as a wide range of industrial manufacturing projects. We work throughout the United States and have supported multiple projects abroad.

JAG Industrial Services, Inc. provides project management, skilled labor and quality assurance for marine repair and shipbuilding as well as a wide range of industrial manufacturing projects. We work throughout the United States and have supported multiple projects abroad (Cayman Islands, Japan, Panama). In just 5 years, JAG has moved from start-up to industry leader in:

Core Competencies

- Industrial Manufacturing Services
- Marine Repair & Ship Building Services
- Riveting
- Quality Assurance

Differentiators

JAG is a company built by marine tradesmen themselves. Our executive management team has over 150-years combined experience in industrial manufacturing, marine repair and shipbuilding. We offer labor services capable of completing every aspect of all marine repair and ship building as well as industrial manufacturing and repair projects. Ultimately, JAG provides project management for industrial and marine support including supervisors, foreman, welders/fitters, painters, electricians, joiners, certified firewatch to many other types of skilled craftsmen.
